

Trim Tim IF1

for the Trimble Acutime Smart Antennas

Trim Tim IF1 is our new version of the Acutime GPS clock interface. TrimTim IF1 comes as replacement of the discontinued SIM box (Synchronization Interface Module) and provides the RS-422 to RS-232 converter and power source. The same pinout allows for direct replacement at any location. Major differences are in the housing construction and in the wall plug type power supply.

Dimensions (W x H x D)	170 x 35 x 114 mm
Weight (with power supply)	1,8 kg
Power adapter	230V AC to 15V/0,5A
Power	≤ 0,6W DC (without Acutime clock)
Interfaces:	
Acutime	DB-25F connector, RS-422 interfaces
PC	DB-9F connectors, RS-232 Port A and Port B

Feel free to contact us for price and availability.
